

Jobsite Protocol

All Crew Members must have their temperature tested twice per day. No Crew Member will be permitted work within any work related social environment if any fever – dry cough or cold and flu symptoms are evidenced.

All Crew Members are required to:

- Wear facemasks
- Wear Gloves
- Wear Shoe covers
- Minimize all social interaction with customers
- Isolate the work area from the living space
- Sweep Clean and Disinfect the work area at the end of every day
- Disinfect hands with Sanitizer often
- Take temperature before and after work

Isolating working area from the living space:

- Plastic wall covers will be used (with painters Tape) to isolate living areas
- Floor Saver Runners will be used to protect the floor
- Face Mask to be worn at all times
- Shoe Covers to be worn at all times
- Gloves to be worn at all times
- Hand Sanitizer
- No Smoking during working hours

Post Installation Clean up and Sanitation:

- All plastic wall covers and floor runners are to be extracted and placed in plastic trash bags – sanitized with disinfectant and sealed.
- Work areas to be swept and disinfected as necessary.
